

ChargePoint – Charging Station for Electric Vehicles

A charging station is available for use at the Boaz Recreation Center (400 Elizabeth St.). Please see below for instructions.

Create an Account

<https://www.chargepoint.com/resources/creating-chargepoint-account/>

- 1 Get the ChargePoint app, available for iPhone and Android.
- 2 Select 'Create account' to start the process.
- 3 Fill in the 'Create account' screen with your basic information, accept the 'Privacy Policy and Terms of Service' and hit 'Next' to continue.
- 4 Fill out the 'Add payment' screen (or skip it).

Tip

When you create your account, you can provide payment info so you'll be ready to charge wherever you go, even at stations with a fee. If you only use free stations, you'll never be charged.

- 5 You can start a charge at any time with your phone. Request a ChargePoint card during sign-up if you'd like one as a back-up.
- 6 Tell us what car you drive in the EV information section. This helps us estimate how long it will take to charge your car.
- 7 Choose how you want to get updates about charging in the Notifications section.
- 8 That's it! Now you can find places to charge wherever you go.

Start a Charge

<https://www.chargepoint.com/resources/how-start-charge-chargepoint-station/>

You have three ways to start a charge:

Tap your phone (signed in to the ChargePoint app) on the station

Tap your ChargePoint card on the station

Tap the orange "Start Charge" button in the station details page in the mobile app

Tip

Use your card or push the "Start Charge" button in the app to use your account with non-ChargePoint stations.

2 Push the button on the connector and lift it out of the holster on the station.

3 Plug the connector into your EV to start charging. Check to make sure your EV is charging.

Tip

Many EVs have an indicator light on the dashboard that shows if the vehicle is charging.

4 When charging is finished, just unplug and return the connector to the station (hit the stop charging button on the station if you're fast charging). We'll send you a receipt by email, and you can view your charging history in Charging Activity in the app.

Price

While charging: Free

45 minutes after charging stops: \$2/hr
